

Special Issue

Symmetry in Mechanical Engineering

Message from the Guest Editors

This Special Issue invites original research papers that report on the state-of-the-art and recent advancements which are related to symmetry in mechanical engineering: measurement, fault diagnosis, construction, operation and maintenance of machines, vibration, noise, smart-material systems, integrated systems, stresses, deformations, mechanical properties, signal processing of mechanical systems, fault diagnosis of machines, shafts, springs, belts, bearings, gears, rotors, rotor dynamics, and machine elements. This Special Issue encompasses applications in mechanical engineering, modeling methods for rigid-body mechanics, structural mechanics, impact mechanics, strain localization, tribology, and thermodynamics. Review articles related to mechanical engineering are also encouraged.

Guest Editors

Prof. Dr. Adam Glowacz

Dr. Muhammad Irfan

Dr. Wahyu Caesarendra

Prof. Dr. Hui Liu

About the Journal

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Editor-in-Chief

Prof. Dr. Sergei Odintsov

2. Institute of Space Sciences (IEEC-CSIC), C. Can Magrans s/n, 08193 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within SCIE (Web of Science), Scopus, CAPus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (General Mathematics)
