Business Management and Sociology Department, University of Extremadura, 10071 Cáceres, Spain

Prof. Dr. Marta Ortiz-de-Urbina-Criado

Directory of Experts in Information Handling, Universidad Rey Juan Carlos, Paseo de los Artilleros, 28032 Madrid, Spain

Prof. Dr. José Amelio Medina-Merodio

Departamento de Ciencias de la Computación, Universidad de Alcalá, 28871 Madrid, Spain

Deadline for manuscript submissions:

closed (31 March 2024)

Message from the Guest Editors

Dear Colleagues,

This Special Issue invites researchers to submit quality original studies in the domain of industrial process improvement through the incorporation of new methodologies and management models, the use of artificial intelligence, big data, and simulation tools in management and production processes and urges them to address their main subdisciplines, which include, but are not limited to:

- Business process management
- Business decision making
- Technological innovation management
- Innovative business models and management
- Data management for decision making
- Intelligent maintenance management
- Building Information Modeling (BIM)
- BI-oriented strategies
- Design and operation of production systems
- Decision support systems based on big data
- Big data technology in business
- Lean and agile production

Chair, Department of Systems
and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (*Modeling and Simulation*)
