Enablers and Capabilities for the Digital Supply Chain

Guest Editors:

Dr. Marco Ardolino

Department of Mechanical and
Industrial Engineering, University
of Brescia, 25121 Brescia, Italy

Dr. Luna Leoni

Department of Management and
Law, Faculty of Economics,
University of Rome Tor Vergata,
00133 Roma, Italy

Deadline for manuscript
submissions:

closed (15 January 2024)

Message from the Guest Editors

Dear Colleagues,

This Special Issue seeks contributions that shed light on the features of the digital supply chain and its potential benefits, as well as the enablers and capabilities to support it.

Accordingly, this Special Issue calls for both theoretical and practical research papers that are capable of providing frameworks, enablers, barriers, best practices, and capabilities on the digital supply chain.

In particular, papers with respect to the following areas are invited:

- Contract management in the digital supply chain;
- Digital capabilities enabling the digital supply chain;
- Performance measurement in the digital supply chain;
- Supply chain risk management in the digital supply chain;
- Supply optimization in the digital supply chain;
- The role of digital technologies for supply chain resilience;
- The role of digital technologies in the digital supply chain;
- Sustainability in the digital supply chain.

Special Issue

systems

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. William T. Scherer

Chair, Department of Systems
and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*Modeling and Simulation*)
