Deadline for manuscript  
submissions:

**30 August 2019**

### Message from the Guest Editors

This Special Issue seeks to attract researchers' work presenting novel approaches to inquiry into the technical, operational, economical, and social impact of gamification emerging technologies with regards to their connection to and impact on enterprise systems. The special issue is open to all types of research methodologies and especially encourages a diversity of theoretical and empirical approaches.

Basically, we are looking for theoretically well-defined research problems, which are relevant the topics intertwined in this Special Issue, with the objective to advance a theory, methods, or open the door for future knowledge to unfold. With that being explained, we differentiate between interesting and important research problems using the scholarly, as well as the utility. As a result, we expect manuscripts to be able to demonstrate scholarly value and in the meantime illustration of how the research contributes to businesses and the society in general.

\* Note: submissions need to show the link to the two subject areas: enterprise systems & gamification, in whichever article/topic submitted to this SI.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Ockie Bosch

1. Distinguished Guest Professor, School of Design and Management, Keio University, Kanagawa 223-8521, Japan
2. Co-Partner, Malik Management Institute, Geltenwilenstrasse 16, 9000 St. Gallen, Switzerland
3. Director, SysPrac Pty Ltd, 4 Savoy Place, Howrah, TAS 7018, Hobart, Australia
4. Honorary Professor, Business School, University of Adelaide, Adelaide, SA 5005, Australia

## Message from the Editor-in-Chief

*Systems* is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** Indexed in the Emerging Sources Citation Index (ESCI - Web of Science) and in DBLP Computer Science Bibliography.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 25.8 days after submission; acceptance to publication is undertaken in 5.4 days (median values for papers published in this journal in the second half of 2018).
