

## Special Issue

# Digital Innovations after COVID-19: Emerging and Systemic Models or Complexities

### Message from the Guest Editor

This Special Issue aims to bring contributions from different areas of knowledge in relation to digital innovations after COVID-19 by organisations and the public in general. Some topics (by no means exclusive) to be addressed by articles are:

- Open innovation digital platforms: crowdsourcing and beyond;
- Integration of business models in systemic innovations;
- Understanding cybersecurity threats in digital platforms;
- Immersive economy partnerships between universities, industry or government;
- Creativity or innovation based applied to knowledge, ecosystems and value co-creation;
- Sustainability and resilience of digitally supported supply chains and management practices.

## About the Journal

### Message from the Editor-in-Chief

*Systems* is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.
