

Special Issue

Digital Solutions for Participatory Governance in Smart Cities

Message from the Guest Editors

The aims of this Special Issue are to illuminate the myriad of ways in which digital innovations are reshaping urban governance paradigms and comprehensively explore the multifaceted landscape of "Digital Solutions for Participatory Governance in Smart Cities," encompassing diverse facets of technological interventions that impact urban governance positively. From harnessing the power of data analytics for informed decision making to deploying citizen-centric platforms for active participation, the contributions in this Special Issue will span a spectrum of interdisciplinary approaches. As cities worldwide embrace the ethos of smart urbanism, this collection of articles promises to unravel the transformative potential inherent in the intersection of digital solutions and participatory governance.

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei
Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore -
Q2 (Modeling and Simulation)
