

## Special Issue

# Emerging Disruptions in Healthcare Systems: How Digital Innovation Is Reshaping Policy, Practice, and Patient Outcomes

### Message from the Guest Editor

This Special Issue, “Emerging Disruptions in Healthcare Systems: How Digital Innovation Is Reshaping Policy, Practice, and Patient Outcomes”, will explore the transformative potential of emerging digital innovations in addressing pressing issues across healthcare systems. We invite scholarly contributions that critically engage with these developments and explore both the obstacles and opportunities posed by digital health innovation. We welcome interdisciplinary studies assessing the role of digital technologies in optimizing service delivery, informing policy, and improving the efficiency of healthcare providers and systems.

Topics of interest include, but are not limited to, the following: the development and implementation of digital innovations; their impact on clinical, managerial, and policy domains; barriers and enablers in digital transformation; and the role of digital innovations in public health management. By offering critical analysis and evidence-based insights, this collection will support the advancement of digital innovations toward more efficient, sustainable, and resilient healthcare systems.

### Guest Editor

Dr. Dalibor Stanimirović

Faculty of Public Administration, University of Ljubljana, Gosarjeva 5,  
1000 Ljubljana, Slovenia

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

*Systems* is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.
