

Special Issue

Application of the Safe System Approach to Transportation

Message from the Guest Editors

This Special Issue seeks contributions that identify new and innovative methods to assist with applying the Safe System approach to transportation, including transport systems analysis, design, and operation. The contributions will be presented to practitioners, researchers, and legislators, who will be provided with ideas and tools that will lead to a safer transport system. Original research and review papers are being sought in the areas:

- Safe System approach in safety funding, planning, and programs;
- Role of human factors in the Safe System approach to transportation;
- Integration of advanced vehicle technologies in the Safe System approach;
- Policy and governance in the Safe System approach to transportation;
- The role of infrastructure in the Safe System approach;
- Public health implications of the Safe System approach to transportation;
- Application of the Safe System approach to freight and commercial transport;

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei
Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore -
Q2 (Modeling and Simulation)
