Special Issue

Project Management of Complex Systems (Manufacturing and Services)

Message from the Guest Editors

This Special Issue invites contributions that offer emerging insights, methods, and best practices for project management within intricate systems. We particularly welcome submissions that demonstrate how a systems-oriented perspective can strengthen collaboration, drive value creation throughout the supply chain, and foster organizational and technological innovation in both industry and services. For this Special Issue, we invite articles that address, among other topics, the following:

- Complex Systems Management
- Systems Engineering in Project Management
- Decision-Making in Complex Project Management
- Systems Engineering and Artificial Intelligence
- Complex Supply Chain Management Systems
- Needs and Requirements in Project Management for Complex Systems
- Product Lifecycle Management in Complex Systems
- Complex Services
- Additive Manufacturing in Complex Systems
- Cybersecurity in Manufacturing and Services
- Al and Generative Al in the Factory of the Future
- Clean Technology Manufacturing

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The Systems journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg

Operations & Service Management Department, Aston Business School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (Modeling and Simulation)
