

Special Issue

Systems Thinking and Systems Practice

Message from the Guest Editors

The editors of *Systems* are delighted to extend this invitation to researchers, scholars, and practitioners to submit original contributions to our open call on the theme of “Systems Thinking and Systems Practice”. This is a genuinely exciting moment for the systems thinking community – an opportunity to bring rigorous, reflective, and innovative work to one of the field’s dedicated publication platforms, and to contribute to a growing body of knowledge that bridges theory and real-world application. We warmly welcome submissions from across the full breadth of systems inquiry, whether rooted in organisational practice, policy, engineering, social systems, or any domain where systemic approaches illuminate complexity and enable meaningful change.

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Birmingham B4 7ET, UK
