

Special Issue

The Systems Thinking Approach to Strategic Management

Message from the Guest Editors

This Special Issue of *Systems* invites you to document the significant contribution of systems thinking to strategic management and propose new avenues for research into its integration. There have been multiple contributions by individual authors in different journals on topics related to strategic management, such as leadership, strategic planning, strategy design, visioning, scenarios, and balanced scorecards, using multiple strands of systems thinking, e.g., critical systems heuristics, critical systems thinking, soft systems methodology, systemic design, system dynamics, viable system models, etc. However, there must be a systematic evaluation of the use of systems thinking in strategic management, especially in the current global situation underpinned by complexity, uncertainty and turbulence.

Guest Editors

Prof. Dr. Federico Barnabè

Department of Business and Law, University of Siena, P.za S. Francesco 7, 53100 Siena, Italy

Prof. Dr. Martin Kunc

Department of Decision Analytics and Risk, University of Southampton, Southampton, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei
Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore -
Q2 (Modeling and Simulation)
