

Special Issue

Systems, Infrastructure, and Industry 5.0

Message from the Guest Editors

This Special Issue invites articles that promote research on resilience, sustainability, and/or human factors. Since emerging, contemporary, and smart technologies (including digital twins, AI, smart materials), which are energy-efficient yet computationally powerful, enable Industry 5.0, studies on the adoption and development of such technologies are invited. Submissions on the following topics are encouraged: the application of emerging technologies, e.g., digital twins for the realization of Industry 5.0; resilient infrastructure; systems research for the development of human-centric businesses and industries; resource-efficient and green technologies; smart manufacturing; systems for product life-cycle management; systemic circularity assessment; strategic and proactive engineering; sustainable business models and manufacturing systems; and systemic risk management. For more information, please visit: mdpi.com/journal/systems/special_issues/K9V89G8713

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei
Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore -
Q2 (Modeling and Simulation)
