

Special Issue

Advances in Virtual Reality, Augmented Reality and Augmented Virtuality

Message from the Guest Editor

This Special Issue invites scientific contributions proposing new, innovative, and original approaches for the development of virtual reality and mixed reality systems with special consideration of the user. The call for papers especially targets those concerning advancements in research and practices in the fields of training, skill acquisition, sport, healthcare, education, industry, entertainment, marketing, and decision making. However, the fields are not limited to these. This Special Issue particularly welcomes articles regarding, among other things:

- New methods of training using virtual reality or mixed reality systems;
- New approaches to applications of virtual reality and mixed reality systems in various fields;
- Comparisons between performing tasks with various degrees of virtuality;
- Studies on user preferences regarding the virtual system's features.

About the Journal

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Editor-in-Chief

Prof. Dr. Ben Clegg
Operations & Service Management Department, Aston Business
School, Aston University, Birmingham B4 7ET, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SSCI (Web of Science), Ei
Compendex, dblp, and other databases.

Journal Rank:

JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore -
Q2 (Modeling and Simulation)
