### Message from the Guest Editors

Dear Colleagues,

We invite submissions to this Special Issue "Physiological Monitoring Technologies" as review articles, original research papers, and short communications covering a broad field of technologies supporting physiological monitoring for both human and animal models, targeting health monitoring and biological studies.

Contributions may include, but are not limited to:

- Design and development of sensors, electronics and systems for physiological monitoring
- Smart computational schemes and/or algorithms to enhance the efficiency and efficacy of physiological monitoring systems
- Smart materials and/or design to enhance the efficiency and efficacy of physiological monitoring systems
- Novel concepts, technologies and implementation for acquiring, processing and monitoring physiological signals

#### Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within ESCI (Web of Science), Scopus, Inspec, Ei Compendex, INSPIRE, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (Computer Science (miscellaneous))
