Piraeus, Greece

Deadline for manuscript  
submissions:

**closed (30 November 2018)**

### Message from the Guest Editor

Dear Colleagues,

The last three decades have seen the emergence and evolution of new manufacturing technologies that offer the benefits of complexity, speed, cost, and high quality of products. Rapid Manufacturing (RM) Technologies, based on Additive Manufacturing techniques (AM), make possible the fabrication of end-use items directly from Computer Aided Design (CAD) data. Despite significant research efforts, the evolution of RM technologies is far from complete with many significant challenges that need to be overcome. The aim of this Special Issue is to collect a series of articles (experimental, analytical and computational) related to technologies, methods, materials, systems and applications in the field of Rapid Manufacturing.

- Design optimization tools and strategies
- Simulation models for RM processes
- Process reliability and product quality
- Materials considerations and characterization
- Additive Manufacturing
- Application of available technologies
- 3D micro/nanostructures

Prof. Dr. Dimitris Karalekas

## Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (Computer Science (miscellaneous))
