

# Special Issue

## The Applications and Challenges of Cybersecurity in Science, Healthcare and Medicine

### Message from the Guest Editor

Healthcare Cybersecurity breaches include stealing health information, ransomware attacks on hospitals, and may include attacks on implanted medical devices. Such breaches can reduce patient trust, cripple health systems, and threaten human life. Aligning cybersecurity and patient safety initiatives will not only help your organization to protect patient safety and privacy but will also ensure continuity of effective delivery of high-quality care by mitigating disruptions that have a negative impact on clinical outcomes. Rising cybersecurity threats to healthcare require policy makers to tackle fragmented governance, develop and implement security standards, and help organizations to improve their resilience. The goal behind this Special Issue is to discuss and present various tools, applications, and models in the context of cybersecurity, in addition to extensive and comprehensive concepts and techniques with regard to science, healthcare, and medicine. All related areas may also be considered.

### Guest Editor

Dr. Mohammed Mahmoud

Department of Mathematics and Computer Science, School of Applied Sciences, Dickinson State University, 291 Campus Drive, Dickinson, ND 58601, USA

### Deadline for manuscript submissions

closed (30 September 2023)

## About the Journal

### Message from the Editor-in-Chief

*Technologies*, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

### Author Benefits

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei  
Compendex, INSPIRE, and other databases.

#### Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1  
(Computer Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 21.8 days after  
submission; acceptance to publication is undertaken in 3.9  
days (median values for papers published in this journal in  
the first half of 2025).
