

Special Issue

IoT-Enabling Technologies and Applications

Message from the Guest Editor

This Special Issue will cover original research and extensive review articles on IoT-enabling technologies and applications, including, but not limited to, the following topics:

- IoT architectures and their applications;
- Challenges and issues in IoT such as security, privacy, and environmental impacts;
- Wireless sensor networks and their applications in IoT systems;
- Integrated Sensing and Communications (ISAC) in IoT systems;
- Challenges in aerial, terrestrial and below earth IoT networks;
- Intelligent Reflecting Surfaces in IoT networks;
- Cloud, Fog and Edge computing in IoT systems;
- Big data analytics and its use in IoT systems;
- Embedded systems and their role in IoT systems;
- Semantic search engines and their use in IoT systems;
- Machine learning and artificial intelligence for IoT applications;
- Smart cities, autonomous vehicles and other user cases of IoT technologies;
- Digital twins and their applications with IoT.

Guest Editor

Prof. Dr. Xavier Fernando

Department of Electrical and Computer Engineering, Ryerson University, Toronto, ON, Canada

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Editor-in-Chief

Prof. Dr. Manoj Gupta

Department of Mechanical Engineering, National University of
Singapore, Singapore 117576, Singapore

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.8 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
