

Special Issue

Advanced Green Information and Communication Technology

Message from the Guest Editors

Information and communication technologies (ICT) are growing rapidly. Consequently, the emissions caused by the usage of ICT increase significantly, and more and more hardware is produced and has to be disposed of after its life time. On the other hand, ICT can innovatively contribute to solve environmental problems in branches such as automotive, production, logistics, or in general sustainable development. Therefore, this Special Issue calls for new and innovative solutions in the field of green ICT, green information systems, green software and its engineering, and also solutions how ICT can contribute to the goals of sustainable development, including ICT-based environment and friendly solutions for industrial and public sectors. This comprises hardware and software solutions, models, and frameworks. Additionally, case studies and the evaluation of best practices are welcome.

- Green IT
- Green Information Systems
- Green Software Engineering
- Green by ICT
- Sustainable Software
- Sustainability Informatics/Sustainable ICT

Guest Editors

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Editor-in-Chief

Prof. Dr. Manoj Gupta

Department of Mechanical Engineering, National University of
Singapore, Singapore 117576, Singapore

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.8 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
