

Special Issue

Modern Methods for Measuring the Functional Characteristics of Surfaces

Message from the Guest Editors

The aim of this Special Issue is to provide an international forum for the dissemination of scientific information on surface metrology—submission from all fields involving the measurement and characterization of surface topography, including archaeology, art conservation, anthropology, biology, biomedical engineering, chemistry, civil engineering, food science, forensics, geodetics, geology, material science, mechanical engineering, manufacturing, metrology, nanotechnology, tribology, and others. The Special Issue covers the modelling, design, and characterization of surfaces and the relationship between surface properties and their applications. This Special Issue accepts high-quality articles containing original research results and review papers regarding metrology, development, and application of the science and technology of measurement, instrumentation and characterisation.

Guest Editors

Prof. Dr. Grzegorz Królczyk
Prof. Dr. Richard Leach
Prof. Dr. Michal Wieczorowski

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Editor-in-Chief

Prof. Dr. Manoj Gupta

Department of Mechanical Engineering, National University of
Singapore, Singapore 117576, Singapore

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 19.1 days after
submission; acceptance to publication is undertaken in 3.6
days (median values for papers published in this journal in
the second half of 2025).
