

Special Issue

Mobile Computing, Wireless Networks & Security

Message from the Guest Editors

Mobile computing has emerged as a hot topic in the information technology domain due to the noteworthy advantages it brings with respect to connectivity, computing, and mobility. Even though recent advances in the critical aspects of mobile computing such as communication, portability, and mobility are promising, it is also evident that more practical solutions are required to deal with the security facets so that the same can be accommodated well with the current technology trends. This Special Issue welcomes state-of-the-art and high-quality research works describing practical and theoretical solutions on mobile computing, wireless networks, and security. Potential topics include but are not limited to:

- Secure mobile computing and wireless network architectures and services;
- Security, privacy, and trustworthiness in wireless and mobile computing systems;
- Security-based energy aware wireless and mobile computing systems;
- Algorithm or protocol design for secure computing systems;
- Security applications of wireless networks and mobile computing;
- Resource discovery, portability, and migration in secure mobile computing systems.

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Editor-in-Chief

Prof. Dr. Manoj Gupta

Department of Mechanical Engineering, National University of
Singapore, Singapore 117576, Singapore

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.8 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
