

Special Issue

Technologies for Virtual and Augmented Reality Applications

Message from the Guest Editor

This Special Issue is intended to report on the latest innovations in the application of technologies to Virtual and Augmented Reality applications. Both practical and theoretical papers are welcome, as well as case studies and innovative multidisciplinary applications. Topics of interest include, but are not limited to:

- Innovative Virtual and Augmented Reality applications
- Case studies and user experience reports
- AR/VR design guidelines and implementation of future standards
- Human-computer interface design, solutions, and challenges
- Performance comparisons and implications of traditional processes versus VR/AR counterparts
- Innovative AR/VR devices, approaches, and algorithms
- Cybersickness and ergonomics in AR/VR

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.8 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
