MOCAST 2019: Modern Circuits and Systems Technologies on Communications

Message from the Guest Editors

The 8th International Conference on Modern Circuit and System Technologies on Electronics and Communications (MOCAST 2019) will take place in Thessaloniki, Greece from May 13 to 15, 2019. The MOCAST technical program includes all aspects of communications and network technologies from antenna design, propagation modeling, wireless communications, network systems, and applications. This Special Issue aims at publishing extended versions of top-ranked papers in the area of communications from the conference. MOCAST is technically sponsored by IEEE. Potential topics include but are not limited to the following:

- Antenna design;
- Propagation;
- Communication systems;
- Wireless communications;
- Network systems.

About the Journal

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Inspec, Ei
Compendex, INSPIRE, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1
(Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 21.8 days after
submission; acceptance to publication is undertaken in 3.9
days (median values for papers published in this journal in
the first half of 2025).
