Message from the Guest Editors

Dear Colleagues,

The 9th International Conference on Modern Circuit and System Technologies on Electronics and Communications (**MOCAST 2020**) will take place in Bremen, Germany from September 7 to 9, 2020. The MOCAST technical program includes all aspects of communications and network technologies from antenna design, propagation modeling, wireless communications, and network systems and applications. This Special Issue aims at publishing extended versions of papers in the area of communications from the conference. Potential topics include but are not limited to the following:

- Antenna design;
- Propagation;
- Communications systems;
- Wireless communications;
- Network systems.

Prof. Dr. Sotirios K. Goudos

Prof. Dr. George Karagiannidis

Message from the Editor-in-Chief

I would like to introduce the new, online, and open access journal *Telecom*. The purpose of *Telecom* is to publish high-quality research papers as well as review articles that address recent advances in communications technology. We invite researchers to contribute original papers describing applications and experiences in emerging trends of all fields of telecommunications engineering. *Telecom* also welcomes Special Issue proposals from academics and industrial researchers. We aim to facilitate more collaboration between scientists and engineers around the world, such that they will produce their innovative ideas and submit their cutting-edge technologies to *Telecom*. We anticipate the receipt of your contributions to *Telecom*, and we welcome your comments and ideas on how to improve this journal.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **ESCI (Web of Science)**, **Scopus**, **Ei Compendex**, and **other databases**.

Journal Rank: CiteScore - Q2 (Electrical and Electronic Engineering)
