Recent Developments on Thermochemistry and Chemical Thermodynamics by Young Researchers

Message from the Guest Editors

The International Symposium on Chemical Thermodynamics for Young Researchers (ISCTYR) will be held in Southern Italy (Laurino, Salerno), May 22-25, 2022. The event aims to join together leading experts in this field and young researchers coming from different European countries (Italy, Germany, France, Poland, Portugal) and from the Russian Federation. Recent developments on Chemical Thermodynamics and Thermochemistry will be presented and discussed in nine plenary lectures (40 minutes), while more specific and relevant hot topics will be delivered in oral contributions (about 20–25 presentations of 15 minutes) by the young participants. Selected papers presented by the participants to the ISCTYR International Symposium will be submitted to a peer-review procedure for publication in this journal.

Guest Editors

Dr. Stefano Vecchio Cipriotti

Dipartimento S.B.A.I., Sapienza Università di Roma, Via del Castro Laurenziano 7, I-00161 Rome, Italy

Prof. Dr. Sergey Verevkin

Department of Physical Chemistry, Faculty of Interdisciplinary Research, Competence Centre CALOR, Universitat Rostock, 18059 Rostock, Germany

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

Thermo (ISSN: 2673-7264) is an international, peer-reviewed, and open access journal that publishes original research papers, reviews, and Special Issues dealing with experimental, theoretical, and applied thermal sciences. Both theoretical (simulation) and/or experimental research papers within our journal's scope are of particular interest, including satellite-related topics considering thermophysics, solubility phenomena, chemical thermodynamics, and chemical engineering. We encourage scientists to publish their results in as much detail as possible, and there is no restriction on the maximum length of papers. We greatly appreciate suggestions for enhancing the journal.

Editor-in-Chief

Prof. Dr. Johan Jacquemin

Materials Science, Energy, and Nano-Engineering MSN Department,
Mohammed VI Polytechnic University, Lot 660, Hay Moulay Rachid, Ben
Guerir 43150, Morocco

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Journal Rank:

JCR - Q2 (Thermodynamics) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 23 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2025).
