Special Issue

Responsible Tourism: The Technology-Sustainability Interface

Message from the Guest Editors

Responsible tourism has been a collective and pluralist conversation, and in the past decade, sustainability and digitalization through technology (e.g., digital platforms), have become two global issues of our time. As the global community strives to combat climate change, this Special Issue aims to spark lively academic debate on the role of digital technology as a key enabler of the green transition and reaching the United Nation's Sustainable Development Goals (UN SDGs), The Special Issue calls for tourism and hospitality research that offers novel perspectives to the so-called twin transition, whereby papers may address one or more of the interfaces between technology and the dimensions of sustainability, such as the social environmental, cultural, economic, political, legal, or ethical impacts of the twin transition.

About the Journal

Message from the Editor-in-Chief

I am honored to serve as Editor-in-Chief of *Tourism and Hospitality*, a platform for sharing insights, trends, and solutions to global challenges in our industry. We welcome relevant, evidence-based, and forward-thinking research that fosters a sustainable and resilient future. I look forward to collaborating with our team and authors to make the journal engaging, inclusive, and impactful.

Editor-in-Chief

Prof. Dr. Lewis Ting On Cheung
York Business School, York St. John University, York, UK

Author Benefits

Open Access

 free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 5.5 days (median values for papers published in this journal in the first half of 2025).
