

Special Issue

Data-Driven Insights in Tourism and Hospitality: Smart Technologies and Data Science

Message from the Guest Editors

This Special Issue focuses on the transformative role of smart technologies and data science in shaping the future of the tourism and hospitality industries. As these sectors increasingly adopt digital innovations, data-driven insights are becoming crucial for enhancing customer experiences, optimizing operations, and driving sustainable growth. This issue invites contributions that explore the application of big data analytics, artificial intelligence, machine learning, and IoT in tourism and hospitality. Topics of interest may include, but are not limited to, predictive modeling for demand forecasting, the personalization of services, smart destination management, and the impact of real-time data on decision-making processes. We encourage submissions that offer theoretical advancements, empirical research, and case studies that demonstrate the value of integrating smart technologies and data science in improving service quality, operational efficiency, and customer satisfaction.

About the Journal

Message from the Editor-in-Chief

I am honored to serve as Editor-in-Chief of *Tourism and Hospitality*, a platform for sharing insights, trends, and solutions to global challenges in our industry. We welcome relevant, evidence-based, and forward-thinking research that fosters a sustainable and resilient future. I look forward to collaborating with our team and authors to make the journal engaging, inclusive, and impactful.

Editor-in-Chief

Prof. Dr. Lewis Ting On Cheung

York Business School, York St. John University, York, UK

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.7 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the second half of 2025).
