

Special Issue

Sustaining the Character of a Place through Geotourism and Geoparks

Message from the Guest Editors

We are pleased to invite you to submit your manuscript to this Special Issue entitled “Sustaining the character of a place through geotourism and Geoparks”, which we see as both an engaging and potentially instructive issue for interested hospitality and tourism practitioners and researchers alike. This Special Issue aims to highlight the ways of conducting studies and the lessons learned as a result of planning, constructing, and implementing geotourism ventures and experiences, including geoparks. We encourage interested authors to consider the impacts of geotourism ventures, sustainable development goals, and values considered when writing their articles. Multi-author, multidisciplinary articles written for a broad audience are especially encouraged.

Guest Editors

Dr. Melinda McHenry
