

Special Issue

Nature-Based Solutions in Tourism and Hospitality

Message from the Guest Editors

The search for solutions, which are sustainable from both an environmental and social point of view but also capable of generating economic profit/benefits, has become important for the tourism sector. This is also due to the ever-increasing demand for greener and more environmentally friendly tourism products. In this context, the tourism sector is more and more oriented towards designing and developing innovative products, initiatives and infrastructures that make use of existing natural solutions and combine natural, cultural and manufactured heritage in a coherent manner; the so-called nature-based solutions. The *Tourism and Hospitality* journal is planning a Special Issue to explore the potential of nature-based solutions in tourism and in the following context: mountain, urban, rural and disadvantaged areas. Studies that use real-time data are particularly welcome. Quantitative studies based on microdata are especially appreciated. Case studies for specific regions, surveys and reviews on topic are also welcome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

I am honored to serve as Editor-in-Chief of *Tourism and Hospitality*, a platform for sharing insights, trends, and solutions to global challenges in our industry. We welcome relevant, evidence-based, and forward-thinking research that fosters a sustainable and resilient future. I look forward to collaborating with our team and authors to make the journal engaging, inclusive, and impactful.

Editor-in-Chief

Prof. Dr. Lewis Ting On Cheung

York Business School, York St. John University, York, UK

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.7 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the second half of 2025).
