Human Exposure to Chemicals in Consumer Products

Guest Editors:

Dr. Jiping Zhu

Exposure and Biomonitoring Division, Environmental Health Science and Research Bureau, Health Canada, University of Toronto, Ottawa, ON, Canada

Dr. Élyse Caron-Beaudoin

Department of Health and Society, University of Toronto, Scarborough (UTSC), Toronto, Canada

Deadline for manuscript submissions:

closed (30 September 2024)

Message from the Guest Editors

This Special Issue is devoted to research on consumer products related to chemicals including solvents, pesticides, plasticizers and flame retardants. The research topics include, but are not limited to, the following: (1) identification and monitoring of the chemicals in consumer chemicals or in humans and indoor environment resulting from use of consumer products including both measurement methodology and generation of baseline levels of concentration; (2) investigation of the fate of these chemicals including their transformation products in humans and in the environment such as ozone or photo initiated reactions of these chemicals as well as enzyme induced transformation; and (3) estimation of human exposure to these chemicals through inhalation, ingestion or dermal adsorption under defined conditions that consider quantity and length of exposure to these chemicals. Research reporting the toxicities or health consequences of these chemicals are outside of the scope of this Special Issue.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)
