

Special Issue

Neurotoxicity from Exposure to Environmental Pollutants

Message from the Guest Editors

In this Special Issue, we highlight innovative methodologies to elucidate neurotoxic mechanisms, improve exposure assessment accuracy, and support policy decisions aimed at reducing neurotoxic risks from environmental pollutants, ultimately protecting neurological health across the lifespan.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.
