

## Special Issue

# Environment Chemical Pollutant Exposure and Immunotoxicology

### Message from the Guest Editors

This Special Issue, “Environment Chemical Pollutant Exposure and Immunotoxicology”, of *Toxics* will be mainly concentrated on the area of immunotoxicity induced by chemical pollutants, both emerging pollutants and traditional pollutants. The areas include toxicity identification, methods for evaluation, the mechanism of toxicity, and risk assessment. All the research about injury to different kinds of immunocytes, cytokines, the function of the innate immune response, and the adaptive immune response is welcome to be published in this Special Issue. The purpose of this Special Issue is to gather all the related research in the area of immunotoxicity so as to provide plentiful information in this area at the same time. This could be convenient for scientists who pay more attention to immunotoxicology or want to browse the latest progress in the special scope focused on the injury of the immune system related to environmental contaminants.

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2025).
