

Special Issue

Environmental Processes, Ecotoxicity and Treatment of Emerging Pollutants

Message from the Guest Editors

This Special Issue, entitled "**Environmental Processes, Ecotoxicity and Treatment of Emerging Pollutants**", aims to collect research papers on the behavior, toxic effects and control strategies of emerging pollutants such as antibiotics, endocrine disruptors, microplastics, perfluorinated compounds and other persistent organic pollutants in the environment. Research areas include, but are not limited to, the environmental processes, ecotoxicological effects, risk assessment and related treatment processes of emerging pollutants in environmental media such as water, soil and the atmosphere. We welcome the following types of submissions:

- Studies on the adsorption behavior, photochemical transformation, and biotransformation of emerging pollutants in the environment.
- Ecotoxicological effects and risk assessment of emerging pollutants.
- Research on chemical and other treatment processes for emerging pollutants.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
