

Special Issue

Interventions, Practices, and Policies to Reduce Particulate Matter Air Pollution Exposure and Health Outcomes

Message from the Guest Editors

This Special Issue seeks contributions spanning but not limited to the following themes: Smart urban, building, and transportation design integrating air quality sensors and green infrastructure to mitigate exposure and associated disease burdens. Personal/community-level strategies to reduce exposure (e.g., N95 respirators, indoor air purifiers) and their effectiveness in preventing adverse health outcomes. Behavioral and educational campaigns targeting marginalized populations (e.g., children, outdoor workers, low-income communities) to improve human health in pollution-related morbidity reduction.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,
08034 Barcelona, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
