

Special Issue

Advance in Biomarkers for the Identification of Human Exposure to Different Occupational and Environmental Pollutants of New Concern

Message from the Guest Editors

This Special Issue focuses on research on new biomarkers and the development of new analytical methods using different techniques, such as liquid chromatography, gas chromatography and mass spectrometry, to measure the exposure, effect and susceptibility biomarkers in human specimens, mostly in their blood, urine, saliva, and exhaled air. Therefore, this Special Issue solicits the submission of original researches and review articles on this topic.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,
08034 Barcelona, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2025).
