

## Special Issue

# Hazard Assessment of per- and Polyfluorinated Alkyl Sub-Stances (PFAS)

### Message from the Guest Editor

We are pleased to introduce a Special Issue titled "Hazard Assessment of per- and Polyfluorinated Alkyl Sub-Stances (PFAS)" in *Toxics*. This collection of papers aims to address the growing concern surrounding the environmental and health impacts of PFAS, a class of chemicals that have become ubiquitous in our ecosystems and daily lives. Led by a team of expert, this Special Issue provides a platform for sharing cutting-edge research and facilitating interdisciplinary discussions that can shape the future of PFAS hazard assessment. The articles published in this collection will cover a broad spectrum of topics, from toxicological studies to environmental monitoring, and will contribute to a deeper understanding of the risks associated with PFAS exposure. We encourage researchers and practitioners to engage with the findings presented here as they will play a crucial role in advancing both scientific knowledge and practical solutions to mitigate the effects of these persistent contaminants.

### Guest Editor

Dr. Tracey L. Woodlief

Department of Pharmacology & Toxicology, East Carolina University, Greenville, NC, USA

### Deadline for manuscript submissions

closed (20 September 2025)

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
