

Special Issue

Occurrence and Ecotoxicological Risk of Emerging Contaminants in Aquatic Environment

Message from the Guest Editors

In recent years, the ceaseless search for new products, materials, and ingredients in all the productive sectors has led to the generation and use of new chemical substances with a high potential to enter the aquatic environment. In this regard, the study of the occurrence, fate, and ecotoxicological risk of these emerging contaminants and their possible interactions with other components or contaminants on the aquatic environment is a matter of high interest and a research field of growing importance. This Special Issue aims to feature full-length articles, reviews, and communications addressing novel research on this topic from a multidisciplinary point of view, including (but not limited to) the following topics: Pharmaceuticals and personal care products (PPCPs); Pesticides; Veterinary drugs; Microplastics; Micro and nanoparticles; Disinfection byproducts; Surfactants; Industrial chemicals; Polymers; Persistent organic pollutants (POPs); Other persistent, bioaccumulative and toxic chemicals (PBTs).

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
