

Special Issue

Current Issues and Research Perspectives in Forensic Toxicology

Message from the Guest Editors

In summary, this Special Issue of *Toxics* on forensic toxicology research aims to provide a comprehensive resource that addresses the current issues and future research perspectives on drugs of abuse and alcohol. By focusing on clinical, toxicological, and forensic implications, we hope to foster a deeper understanding and spur further innovation in this critical field. We invite researchers, clinicians, and forensic professionals to contribute their findings and insights, helping to shape the future of forensic toxicology. Studies may include, but are not limited to, the following:

- Postmortem forensic toxicology;
- Synthetic and natural poisons;
- The interpretation of forensic toxicological data;
- The screening of medicines, drugs of abuse, and alcohol in clinical and forensic specimens;
- Human performance toxicology;
- Driving under the influence of drugs and alcohol;
- Workplace drug testing;
- The application of proteomics to forensic toxicology;
- Markers for neurochemical diagnostics;
- Prenatal alcohol exposure and related biomarkers.

Guest Editors

Dr. Marek Wiergowski

Dr. Giuseppe Davide Albano

Dr. Claudia Trignano

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
