

Special Issue

Environmental Contaminants in a Changing World

Message from the Guest Editors

The anthropogenic activities inherent to our modern lifestyle lead to the widespread occurrence of different types of environmental contaminants (e.g. pharmaceuticals, personal care products, pesticides, metals, plastics, industrial wastes, landfill leachates, etc.) and their single and combined toxicity have become a topical concern. This Special Issue of *Toxics* invites the submission of original research and reviews on the toxicity of several classes of environmental contaminants in a changing world that will enable us to discuss and increase awareness, while anticipating the likely impacts on ecosystems and living resources. The scope of this Special Issue includes, but is not limited to, studies that involve biomonitoring, the implementation of new methodologies, modelling, field- and laboratory-based approaches from micro- to mesocosms and may range from sub-cellular to community and ecosystem levels in both terrestrial and aquatic environments.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
