

Special Issue

Environmental Risk Assessment and Control of Emerging Contaminants

Message from the Guest Editors

The Special Issue "Environmental Risk Assessment and Control of Emerging Contaminants" of *IJERPH* focuses on the current state of knowledge regarding "New Advances in Environmental Risk Assessment and Control of Emerging Contaminants". We will accept manuscripts from different disciplines including the investigation and distribution of contaminant sources, exposure assessment science, risk and health impact assessment, risk management including toxicology and environmental benchmarks (standards), the environmental process and transformation of contaminants, combined effect and synergistic pollution, etc. All in all, we encourage papers addressing science that facilitates greater understanding of the nature, extent, and impacts of the presence of emerging contaminants in the environment; technology that exploits original principles to reduce and control their environmental presence; as well as the development, implementation, and efficacy of national and international policies to protect human health and the environment from emerging contaminants.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
