

Special Issue

Reproductive and Developmental Toxicity of Environmental Factors

Message from the Guest Editors

In the Special Issue “Reproductive and Developmental Toxicity of Environmental Factors”, we aim to explore the incidence, effects, and mechanisms of environmental factors on fertility and prenatal/postnatal development. We invite you to submit high-quality original research papers, short communications, and reviews on the reproductive and developmental toxicity of environmental agents. Topics of interest include, but are not limited to, the following:

- Reproductive and developmental toxicity mechanisms of traditional or emerging contaminants;
- The impact of environmental factors on fertility and reproductive health;
- The relationship between maternal exposure to environmental factors and abortion or congenital diseases;
- Protective and intervention strategies against the reproductive and developmental toxicity of environmental factors.

Guest Editors

Dr. Tao Chen
Prof. Dr. Jisheng Nie

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2025).
