

Special Issue

Biomonitoring and Exposure Assessment of Multiple Occupational Hazards

Message from the Guest Editors

Occupational populations are always being co-exposed to multiple hazards in their working environments. However, previous studies have often focused on the exposure assessment, health risk assessment, and molecular mechanisms of a single hazard, resulting in substantial knowledge gaps regarding the extent of multiple simultaneous exposures in working environments. Thus, this Special Issue aims to share new information on the biomonitoring and exposure assessment of multiple occupational hazards and to assess their co-exposure effects on workers' health and the underlying mechanisms. Innovative articles responding to this issue should report original findings, reviews, and methods relevant to biomonitoring and exposure assessment of multiple hazards in occupational environments.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2025).
