

Special Issue

Editorial Board Members' Collection Series: Aerosol Particles

Message from the Guest Editors

We solicit manuscripts addressing emission sources, atmospheric transformation, and dispersion of aerosol particles in this Special Issue on this topic. Exposure assessment, aerosol chemistry and toxicology, and environmental studies are topics of interest in this Special Issue. Both research articles and reviews on the methodological aspects and on specific applications are welcome. Atmospheric studies of primary and secondary organic aerosols, particle-bound toxins such as transition metals, and their related oxidative potential are of specific interest due to their importance for understanding the health impacts of particles. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
