

## Special Issue

# Emerging Contaminants and Technological Innovations in Air Quality: Monitoring Solutions for Indoor and Outdoor Environments

### Message from the Guest Editors

This Special Issue addresses growing concerns around air quality, focusing on both indoor and outdoor environments. Indoor air pollution has increasingly gained attention due to its potential health impacts, particularly in residential, commercial, and healthcare settings. This Issue highlights emerging contaminants, including volatile organic compounds (VOCs), particulate matter, and other pollutants that have become more prevalent in the post-pandemic era. Furthermore, it will explore cutting-edge advancements in monitoring technologies and methodologies, emphasizing innovative sensors, real-time air quality assessment tools, and data analytics platforms that facilitate the more effective detection and management of indoor air quality.

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
