

Special Issue

Assessment of the (Eco)Toxicity of Nanomaterials

Message from the Guest Editor

Nanomaterials (NMs) are present in our every day life, and the risks associated to their release into the environment, with the concomitant consequences to human and environmental health, are a real concern. This Special Issue aims to contribute to improving and supporting the current efforts on recognizing the best practices/test procedures for NMs risk assessment. Papers may include but are not limited to toxicokinetic and toxicodynamic studies; assessment of molecular or epigenetic mechanisms of toxicity; in vitro studies; phenotypic or behavioral outcomes; and/or predictive or computational toxicology approaches, supported by proper materials characterization. Authors are invited and welcome to submit original research papers, reviews, and short communications.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,
08034 Barcelona, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
