

Special Issue

Atmospheric Emissions Characteristics and Its Impact on Human Health—2nd Edition

Message from the Guest Editors

This Special Issue welcomes studies focusing on the health effects of atmospheric PM, including health risk assessments and exposure modeling. Interregional, international, and historical studies are highly encouraged. We welcome submissions on topics including, but not limited to, the following:

- Analysis of the hazardous substances in PM and evaluation of their health risk.
- Assessment of the carcinogenic potential of specific air pollutants and their related increased risk of various types of cancer.
- Evaluation of the health effects of various atmospheric PM chemical compositions from anthropogenic sources.
- Toxic and health effects or epidemiological investigations of personal exposure to atmospheric pollutants.
- Occupational exposure; the potential health effects of specific pollution sources on surrounding residents or employees.
- Control of PM hazardous compounds using advanced technologies.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
