

## Special Issue

# Quantification, Risk Assessment and Body Exposure Levels of Toxic Substances

### Message from the Guest Editors

Environmental contaminants and related human health risks have become a global environmental issue. Environmental contaminants enter an ecosystem and spread throughout the food chain. The potential exposure of humans to these contaminants is a serious concern. In recent years, there has been a growing interest in the relationship between environmental contaminants and human diseases, in an attempt to answer the question of how the contaminants affect human bodies. This Special Issue focuses on environmental contaminants and human health, aiming to elucidate the relationship and mechanisms. It covers, but is not limited to, the following topics: the occurrence levels of contaminants in environmental and human bodies, exposure estimation, toxicity research, meta-analysis and review of data.

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
