

## Special Issue

# Occupational Exposure Risk Assessment of Air Pollutants

### Message from the Guest Editor

The *Toxics* journal invites you to contribute to this Special Issue, which is dedicated to the “Occupational Exposure Risk Assessment of Air Pollutants”. We welcome studies that explore novel methods, data analyses, and case studies related to air quality in work environments. Topics of interest include, but are not limited to, the following:

- Exposure assessment techniques and biomarkers.
- Long-term health outcomes and epidemiological studies.
- Risk modeling and prediction of pollutant concentrations.
- Regulatory frameworks and guidelines for air quality control.
- Innovative mitigation and protective strategies for workers.

We encourage interdisciplinary research and the submission of original articles, reviews, and case studies that can both advance our understanding of air pollutant exposure risks in occupational settings and inform better risk management practices.

### Guest Editor

Dr. Renaud Persoons

Laboratoire de Toxicologie Professionnelle et Environnementale,  
University of Grenoble Alpes, CNRS, Grenoble INP, CHU Grenoble  
Alpes, TIMC, 38000 Grenoble, France

### Deadline for manuscript submissions

31 August 2025

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
