Particulate Matter and Volatile Organic Compounds Emissions and Their Health Impact: Spotlight on Solid Fuel Combustion

Message from the Guest Editors

Solid fuels, including coal and biomass, and their substitutes, are still the main energy sources for over 3 billion people globally. Household air pollution (HAP) becomes severe when people do not have access to clean energy and primarily use solid fuels for cooking and space heating. Household solid fuel combustion has been recognized as a high-ranking risk factor by the WHO. An increasing number of epidemiological and cohort studies have reported that solid fuel-derived HAP exposure may be associated with lung, cardiovascular, and neurological injury, and may even have resulted in huge mortality in populations in low-income areas in particular. This Special Issue welcomes studies from different countries focusing on the health effects of solid fuel emissions. Interregional, international and historical studies are highly encouraged in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
