

Special Issue

Pesticides in Formulations: Toxicological and Regulatory Assessments, New Developments

Message from the Guest Editor

The aim of this Special Issue is to explain new discoveries, particularly regarding the long-term toxicities of pesticides in whole ecosystems, and, importantly, how these are taken into consideration by health and regulatory agencies. The scope is to understand the new developments in the knowledge of full formulations, especially compared to the known effects of the declared active ingredients alone. The understanding of the nature and toxicities of formulants other than the declared active ingredients will be of interest. The major pesticides of the world, i.e., glyphosate-based herbicides, which are being debated in all continents, will be focused on. Any knowledge in various sciences helping to understand this topic is welcome; even reviews and technical, biological, epidemiological, sociological, theoretical, historical or multidisciplinary approaches are encouraged.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
