

Special Issue

Spotlight on the Ecotoxicological Impacts of Plastic Pollution

Message from the Guest Editors

This special issue entitled “Spotlight on Ecotoxicological Impacts of Plastic Pollution” intends to discuss, but is not limited to, the presence, fate and behavior of nano and microplastics in the environment, their uptake by the biota, and the ecotoxicological effects that may occur at different levels of biological organization as a consequence of exposure to plastics. It involves also manuscripts regarding the chemical composition of plastics and/or leachates obtained from plastics, and their toxicity, and the hazards associated to such contaminants. This issue intends to join some of the main authors in this field, providing a sound discussion about the problem of plastic pollution and its ecotoxicological effects. This issue also intends to provide up to date information and innovative results on the topic.

About the Journal

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Editor-in-Chief

Dr. Demetrio Raldúa
Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
